RELEVANT PROFESSIONAL EXPERIENCE

NielsenIQ

Jun. 2024 – Sep. 2025

Retail & Operations Analyst - Market Research

Bogotá, Colombia

- Managed a portfolio of international client accounts through the API-enabled NielsenIQ 'Discover' platform, coordinating the delivery of high-frequency global datasets to drive client retention and satisfaction.
- Owned client performance reporting, tracking acquisition and growth metrics to formulate strategic recommendations for key stakeholders and support account optimization decisions.
- Led strategic client communications, delivering targeted technical updates and tailored newsletters to strengthen long-term engagement and proactively resolve product-related inquiries.

Schlumberger

Mar. 2022 – Mar. 2024

Expediting Specialist - Procurement & Logistics

Bogotá, Colombia

- Managed end-to-end relationships with global supplier accounts, overseeing performance, financial reconciliations, and issue resolution to ensure operational continuity and partner satisfaction across key distribution centers.
- Analyzed account-level logistics demand using SAP and Excel, producing data-driven performance reports to identify optimization opportunities and drive improvements in partner KPIs.
- Architected automated purchase order tracking processes using Python, Excel Query, and SAP, reducing response times and improving visibility across a high-volume book of supplier accounts.

Schlumberger

Jun. 2021 – Jan. 2022

Operations Intern - Database Administrator

Bogotá, Colombia

- Maintained and updated a large supplier catalogue database, ensuring data integrity and accuracy to support account reporting for the Global Business Services team.
- Validated dashboard data and assembled performance reports for senior stakeholders, building strong habits of accuracy and quality control in a client-facing reporting environment.

RESEARCH EXPERIENCE

Université Paris 1 Panthéon-Sorbonne

Sept. 2025 – Present

Master Quantitative Research

Paris, France

- Conducting quantitative research on the causal impact of remittances on financial development in Colombia, using large longitudinal household data and quantitative methods (heterogeneous effects 2SLS with shift-share instruments strategy) to generate policy-relevant findings on financial inclusion.

Pontificia Universidad Javeriana

Undergraduate Qualitative Research

Jan. 2022 – Mar. 2023

Bogotá, Colombia

- Conducted qualitative research on indigenous governance and rural political economy, translating field interviews, peace studies literature and socio-economic data into clear, structured evaluation of agriculture policies (crops substitution) and labor market integration of Misak community.

LEADERSHIP

Peace Brigades International (PBI) France

bénévole

May. 2026 – Present

Paris, France

- Designing and implementing a multi-month communication and awareness project on the situation of human rights defenders in PBI's field programmes (Colombia, Honduras, Mexico), producing written content and organising public sensitisation events.
- Developing advocacy and project management competencies in an international NGO context, contributing to the visibility of defenders' work across French civil society audiences.

Comisión de la Verdad (Truth Commission)

Volunteer, Generación V+

Jun. 2020 – Dec. 2020

Bogotá, Colombia

- Facilitated public workshops on peace-building and transitional justice for diverse audiences (schools, universities and civil society associations), translating complex research findings from the “There is a Future if There is Truth” final report into accessible, engaging formats for non-specialist participants.
